

LA BRASSERIE DES SOURCES

Our brewery was born in 1997 during the filming of the movie *Germinal* in Northern France. It was bought to life by the famous actors playing in this adaptation of Zolas masterpiece. Ownership has changed since but the pioneering local spirit is still growing to create new audacious recipes to ship worldwide.

Nowadays, the brewery is modern and efficient, equipped with high-tech machineries. It is specialized in bottle conditioning and produces a large range of brands. Our trademarks are inspired recipes, triple fermentation and dry hopping which leads to brilliant crafts. Our flagship labels are Bellerose, Bellerose de Noël and Vieux-Lille.
